Improving CAPITAL PROJECTS

Assessing the Pros, Cons and Impact of Various Project Delivery Methods

An Honest Conversation with Leading Industry Owners

Dinner and Panel Discussion

Join us! Owners and project professionals will gather to have an candid conversation with dynamic and diverse leaders responsible for planning, budgeting and building capital projects.

The panel will discuss experiences with various project delivery methods such as Design Build, Competitive Sealed Bid, CM@Risk and IPD. Topics will include delivery expectations, understood value, and the pros and cons from the owner perspective. Wayne O'Neil, will be our panel facilitator and will be explaining the general differences between each delivery method and then facilitate the dialog with panel members regarding delivery outcomes.

This is an exciting opportunity for you to enhance the project delivery methods for capital projects!

Facilitator
